SCALE & PRODUCTION LINES

Our manufacturing capabilities are robust and scalable, designed to handle significant volumes without compromising on quality.

Workforce: We operate with a dedicated team of 500 to 1000 skilled employees.

Production Capacity: Our facility has a monthly output of approximately 10,000 backpacks or 6,000 tactical vests, demonstrating our flexibility and efficiency.

Product Range: Our comprehensive production lines cover a wide array of tactical and outdoor products, including:

Tactical backpacks, pouches, gun bags, chest rigs, plate carriers, body armors, tactical clothing, helmets, belts, and tactical accessories.

Each customizable to meet your exact specifications and mission requirements.

OEM/ODM

400000+PCS OUTPUT MONTHLY

OEM/Contract Manufacturing: We excel at bringing your precise designs and specifications to life, ensuring flawless execution from your tech packs.

ODM/Design & Production: Leverage our 18 years of design and R&D experience. From concept to final product, we can develop innovative, market-ready solutions tailored to your brand.

OUR PHILOSOPHY

We firmly believe that professionalism is the foundation for standing firm. Every employee is committed to delving deeply into the field of tactical equipment, constantly enhancing their professional skills and knowledge level. From the research and development design of the product to its production and manufacturing, and then to after-sales service, we treat every link with a professional attitude to ensure that we provide customers with the most professional solutions.

We believe in building gear that lasts. Every stitch, fabric, and component is selected and assembled to withstand the toughest conditions.

Our 18 years of hands-on experience provide us with deep insights into product design, material science, and manufacturing techniques. We are committed to continuous improvement and innovation.

We view our clients as long-term partners. Our goal is to be a reliable extension of your team, ensuring on-time delivery, consistent quality, and transparent communication.

QUALITY FIRST

Quality is our lifeline. We strictly control product quality, from the selection of raw materials to the control of production processes, and then to the inspection and testing of finished products. Every step adheres to strict standards. We pursue outstanding quality and are committed to providing customers with durable, reliable and safe tactical equipment.

INNOVATION AND PROGRESS

Innovation is the driving force for the development of an enterprise. We encourage our employees to be brave in trying new technologies, new materials and new design concepts, and constantly launch innovative products and solutions. We actively monitor the development trends of the industry and changes in customer demands, and promptly adjust our product strategies to maintain the competitiveness of the enterprise.
